Subject: Canceled: Bremerton Gas Works Update
[attachment.ics](#)

Hi all-

Per the request of the Suquamish, we'll start this meeting at 1 pm and end around 3 pm. It's unlikely to take more than 2 hours. Let me know if you have questions. Thanks!

Eva

Hi all-

Please hold the date for an informational meeting at Cascade Natural Gas offices in Bremerton on the Remedial Investigation underway at the Bremerton Gas Works site. CNG and their contractors will be presenting. I'll send more info and an agenda as the time draws nearer. Let me know if you have questions. Thanks.

Eva

Subject: Bremerton Gas Works Update

Hi all-

Happy New Year! I wanted to provide you with the latest update on the Bremerton Gas Works Superfund Site. Cascade Natural Gas and their contractors (Aspect and Anchor QEA) began the remedial investigation last summer. The upland investigation has included the geophysical investigation, source characterization, and continues with source area investigation. The marine area investigation has included a video transect

survey, surface sediment sampling, shellfish survey, and subsurface sediment investigation. The investigation will continue this year with groundwater monitoring and surface water sampling. The Phase I Data Report is expected June 5, 2019.

I wanted to survey everyone on the interest of CNG holding an informational meeting to provide further details on their work and what the initial data shows. The data is not yet fully validated. If there is enough interest, we could hold this meeting at CNG's offices in Bremerton sometime in February or March. Let me know your interest by COB January 12.

If you have further questions, please feel free to call me. Thank you.

Eva
